

Participating in the Plywood Cup over the last four years has been a very positive experience for the staff of Clifton Associates Ltd. It is a terrific event, as it offers the opportunity for staff to participate in something that is unique, challenging and rewarding. There is no other competition like it in the province, and only one other like it in Canada. And we feel our location in Wascana Park is ideal for this event.

Not only does the Plywood Cup support the community by donating proceeds to local charities, but it's extraordinarily easy to participate in. Compared to some other events that require a larger group of people, the Plywood Cup requires a team of four, which is very simple to organize. Add this to the fact that anyone can participate, and it is a definitely an event people should consider joining. All that is needed is a little imagination and a desire to show off your boat building skills, and the rest takes care of itself.

We are very pleased with the ease of fundraising for this event as well. The organizers have a great set up for fundraising through the Hospitals of Regina website which makes the donation process quick and efficient.

The Plywood Cup is a world class competition right here in Regina, and is an event our staff look forward to every year. It's popularity continues to increase and it is great to see how the boat designs are continuing to evolve. The Regina Progress Club does a phenomenal job organizing this event and race day is a guaranteed good time - we look forward to participating in this event again this summer.

Regards,
Jason Gasmio
Vice President
Clifton Associates Ltd.
